- (a) If the application for a Certificate of Appropriateness involves the demolition of a building, which the HDC initially determines to be an inappropriate demolition, then the HDC may defer the matter until such time as it has had an opportunity to consider the following alternatives to the demolition of subject property:
  1. Sources of funding for preservation and restoration activities if lack of such funds is the reason for the request to demolish.
  2. Adaptive use changes.
  3. **An** attempt to find a purchaser for the property who would maintain the building in a suitable and acceptable manner.

If, at the expiration of six (6) calendar months from the date of the first public hearing of an application for demolition, the HDC has not found a viable alternative to the demolition of the property, the HDC shall reschedule the matter for public hearing requiring notices as aforesaid, and upon said public hearing, make its final determination as to the application. In such cases, the public hearing for final determination shall be held within one (1) calendar month after the expiration of the six (6) months from the date of the first public hearing; and at the second public hearing, the HDC may hear such matters as are considered necessary or desirable to be fully advised of all facts and circumstances pertaining to the proposed demolition. (c) Provided, that this ordinance shall not apply to any ordinances or amendments thereto enacted by the City of Conway pursuant to the authority of A.C.A. **14-56-203** regarding the razing and removal of dilapidated buildings.

**SECTION 8 – ECONOMIC HARDSHIP:** In addition to considering, the matters brought to the attention of the HDC and the criteria set out above, the HDC may determine that failure to issue a Certificate of Appropriateness will create a substantial financial hardship to the applicant.

- (a) It shall be incumbent on the applicant to demonstrate financial hardship to the HDC.
- (b) If the property is a significant historic and community resource, the HDC may invoke up to a ninety (90) day delay of proposed work. During this period of delay, the HDC shall propose suitable alternatives to the proposed work for the applicant to investigate. The applicant, with the assistance of the HDC and/or City staff, shall investigate the feasibility of the proposed alternatives, and report

their findings to the HDC. If the applicant fails such, the HDC may consider this failure in their deliberations.

- (c) If, after the end of the ninety (90) day delay period, no reasonable use can be found or economic return can be obtained and there has been no substantial detriment to the Historic District, the HDC may issue a Certificate of Economic Hardship approving the proposed work. If the HDC finds otherwise, it shall deny the application for Certificate of Economic Hardship, and record in its records the reasons therefore.

**SECTION 9 - MAINTENANCE AND REPAIR:** The owner or other person having legal custody of any building or structure within a historic district shall keep the structure properly maintained and repaired. - h. The deterioration of any feature so as to create or permit the creation of any hazardous or unsafe condition or conditions.

The HDC may notify the property owner of any violations of these maintenance requirements by mail, giving details of the violation along with a time period no shorter than 60 days but longer as required for remedy of the violation and consequences of failure to remedy the violation.

**SECTION 10 - WORK NOT REQUIRING A CERTIFICATE OF APPROPRIATENESS:**

- (a) Nothing in this Ordinance shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in the Historic District, which does not involve a change in design, materials, or outer appearance. Such ordinary maintenance will not require a Certificate of Appropriateness.
  - 1. For the purposes of this Ordinance, proposed work consisting only of a change in exterior paint colors shall be considered ordinary maintenance.
- (b) This Ordinance shall not prevent the restoration, rehabilitation, renovation, preservation, alteration, construction, or demolition of any such feature that the building inspector or similar agent of the City shall certify is required for the public safety. No further work shall be undertaken on the project as long as a stop work order is in effect. Stop work orders and penalties for non-compliance with such will be enforced according to other applicable laws. A decision shall be made by the HDC concerning the stop work order within five (5) business days.

Any person who violates any of the provisions of this Ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be fined ten dollars (\$10.00) to five hundred dollars (\$500) per day, in accordance with state statute. Each day that a violation continues to exist shall constitute a separate offense.

## APPENDIX A

### The Secretary of the Interiors Standards of Rehabilitation

The Standards that follow were originally published in 1977 and revisited in 1990 as part of the Department of the Interior Regulations (36 CFR Part 67, Historic Preservation Certifications). They pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior of historic buildings.

The standards also encompass related landscape features and the building's site and environment **as well as** attached adjacent or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

#### Historic Guidelines

1. Property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
2. The historic character of property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
3. Each property shall be recognized **as** a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.
4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.
6. Deteriorated historic features shall be repaired rather *than* replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old design in color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken in the gentlest means possible.
8. Significant archaeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
